Special Housing Accommodation Request Form

Please be advised that any request for special housing accommodations must be based upon a diagnosed disability or chronic medical condition which functionally impacts your ability to live in a community residential setting.

The variety of housing accommodations on campus is limited. Thus, a request may be made and the student is eligible; however, if the accommodation is simply not available, the University cannot make the accommodation (for example: a private bathroom).

Please complete this entire form and attach your supporting documentation from your health provider (medical doctor, psychiatrist, medical specialist, psychologist, etc.). Please be sure this typed documentation contains a specific diagnosis of a disability or chronic medical condition, a narrative about how this issue functionally impacts you with regard to a community living environment, and the credentials of the health provider. Send to the address noted above.
