Student Medical Form Information for Graduate Students:

Graduate students ONLY need to turn in a completed medical form if they reside in Marymount University sponsored housing, both on and off campus.

If you are a graduate student who is living in University sponsored housing - whether on or off campus – these are the medical form requirements:

On Page 1:

All resident graduate students must complete Page 1 completely.

On Page 2 (part III):

The immunizations that are required for resident graduate students are Tetanus/Diphtheria (Td), polio, and two dates OR serologic confirmation of immunity for Measles, Mumps and Rubella (MMR).

On Page 2 (part IV):

If you are a graduate student living on or off campus in Marymount University sponsored housing you DO have to get a physical examination.

On Page 3 (Tuberculosis Screening):

ALL graduate students living on or off campus in University sponsored housing must answer the three questions at the top of the page. If you answer NO to all of the questions you DO NOT have to get a Tuberculosis Skin Test or Chest X-ray. If you answer YES to any of the questions you DO have to get a Tuberculosis Skin Test or Chest X-ray. Please note that a health care provider must sign the bottom of the form regardless of your answers. This signature is required to validate the form.

If you are in the School of Health Professions you DO have to get a Tuberculosis Screening and have a health care provider sign the form.
