

## **E-Classroom Equipment Instructions**

### **Frequently Asked Questions:**

#### **Where to go first:**

Many of your questions on how to work the equipment can be answered by watching our videos on how to use an e-learning classroom available here.

The remote is missing or the batteries are dead, how do I turn the projector on/off?

- \* Each e-classroom is equipped with a control panel located on the wall next to the instructors podium. You can use this in place of the remote to turn the projector on and off.

The computer and the projector are on but nothing is coming up on the screen?

- \* In this case the main reason is that the video input is incorrect. Using the wall panel controls, press the PC button to ensure you are connecting to the correct device.
