Your personal safety and the security of the campus community are of vital concern to Marymount University.

Our Annual Safety and Fire Report (ASR) has now been published and is available online and in print from the Office of Campus Safety and Emergency Management.

The ASR includes crime statistics for the most recent three-year period, concerning reported crimes that occurred on campus, on property owned or controlled by the University, and on public property immediately adjacent to and accessible from the campus. The report includes fire safety information and fire statistics for the campus residence halls. The report contains information regarding the law-enforcement authority of the Campus Safety Department as well as policies on matters affecting campus safety such as crime prevention, alcohol and drug use, sexual assault, state sex-offender registry, and reporting of crimes.

The ASR is available on the Campus Safety and Emergency Management [website](#).
