Educational Program Report

Printed: 02/10/2017

The AANPCB Aggregate Score Report contains the overall information of every candidate who has tested with our organization for the previous year. The report is provided to NP program administrators as a measure of their graduates' achievement; however, information will only be available to individual programs when 3 or more candidates have taken the respective certification examination during the designated reporting period. Each examination contains 135 scored questions, broken down into the content testing domains. The Program Average represents the averaged score for all tests (initial, re-take, and recertification by exam) taken by the program graduates and is next to the National Average for comparison. Out of a total testing score of 800, the minimum score of 500 is needed to pass.

NP Educational Program Report Legend

Cds- Total number of candidates* from your NP program who tested	Pass 1st- Total number of candidates who passed the 1st time tested
Atts- Total number of attempts candidates from your NP program made	Items- Total number of questions per testing domain
Pass- Total number of candidates from your NP program who have passed	Natl Avg- Overall score for total number of tests taken nationwide
N/R- Not Reported	

* Candidates include all testers from the NP Program for that reporting period. Only 2 attempts are allowed per year.

Graduation Year Statistics reports the passing rate and number of candidates who tested by year the exam was taken and year of NP program graduation.

This aggregate data will only be provided when 3 or more candidates have taken the certification exam during the designated reporting period.
