Note: To control for varying methodologies used over the years, all of the retention figures appearing above have been recalculated using the following rules:

- The First-College cohort for each year was verified and adjusted in a few cases to remove students who were not truly first-time freshmen.
- Re-enrollment was counted as being enrolled in a degree-seeking undergraduate program as of the census date for each fall term.
- Students who left the university and were subsequently re-admitted within 6 years of their initial freshman enrollment were included in the appropriate year as re-enrolling.
- Students who completed an associate degree and continued at Marymount working toward the bachelor's degree were *not* counted as having graduated. Once these students earned their bachelor degrees they were counted as degree completers. However, if a student completed the associate and left the University, that student was counted as having earned his/her degree.
